

# Writing Poetry with Grade 3S

January-March, 2020

## Math

Math, Math,  
What fun you are,  
So many equations  
For me to solve.

Hard for some,  
But easy for me,  
I call myself  
The Royal Math Queen.

Addition can solve  
Many different sums,  
Hard for some, easy for one,  
And that one is ME  
Getting no less than A's and B's.

*Kaitlynn Jackman*

I sat at the table  
Then Mom told me a tale  
That I was going to have meat.  
But instead she gave me  
Her homemade pie  
I was as happy  
As a bird in the sky.

*Caitlin Reyes*

## iPad

My iPad keeps me happy  
When I am down  
For when I am bored  
I have such a big frown.

My iPad makes me laugh  
All day  
All I want to do with it  
Is play, play, play.

*Daniel Ince*

I hate the sun  
It's never fun  
Hotter than an old shop  
Will it ever stop?

The sun is never sweet  
It does not ever miss a beat  
Even when I go into the shed  
I feel the sun hitting my head.

*Alyssa Narine*

Backward Belinda  
Lived on Backward Avenue  
She wore her socks  
Over her shoes.  
She walks on her feet  
But thinks it's weird....

*Kymora Merritt*

Backward Betty  
From Backwardstreet  
Visited the vet  
To see about her feet.

She put on her shirt  
With the patterns in the back  
To zip up in the front  
She wears clothes like a sack.

*Maya Harridan*

## Homework

Homework, homework,  
I'm bored with homework.

Should I do you?

Or should I not?

Teachers giving lots of homework

Every day.

Homework, I hate you

In every single way!

I only want to play

Roblox every day.

Homework,

You make me sick.

I get into trouble

Because of you.

Homework,

I don't know

What to do

With you.

*Amaya Wong*

Backward Bill  
From Backwardville,  
Goes to backward school  
To show off his backward skill.

He erases with a pencil point,  
His books go in his lunchkit,  
With his food in the backpack,  
Really, what is this?

*Jaden Inniss*

## Gymnastics

Gymnastics, gymnastics,  
where you tumble and roll,  
on the mats  
and on the floor.

Gymnastics, gymnastics,  
muscles you need,  
to pull up high to the sky  
on the bar and rings.

Balance you need  
to dance on the beam  
and to climb to the moon  
on the rope.

To meet new friends every day,  
to laugh and play,  
gymnastics is fun  
for everyone.

*Zara Jeffers*

## Legos

Legos are my favourite toys

I can make

Many big and small things

Should I make a town?

A theme park would

Be perfect.

Where's the piece I need?

Ugh, where is it?

It's on the floor

Gosh, can't believe I missed it.

I put it in

It does not fit

Oh why does it not fit?

All these different colours

Make me so confused, but,

The theme park is amazing!

CRASH! It falls on the floor

Tears come from my eyes

I spent three hours on it

Now it's just

Gone.

*Celia-Marie Ramsey*

## Emojis

My emojis, my emojis,  
Come to me,  
Foods, feelings and animals,  
No way to change them  
Let them be.

Texts, e-mails  
And more  
Emojis make  
Everything exciting.

Everyone should use them  
They add a touch  
Like the flowers' stem  
Some of them are in a clutch.

So many uses for them  
That they even have a movie!  
Can you believe it?  
I really can't, truly.

*Savahna Waterman*

Lamborghini

Lamborghini, Lamborghini

Here and there

Lamborghini, the fastest cars

They are everywhere

Probably also on Mars.

**Stanzas 2 and 3 need some work...**

*Trae Ambrose*

Mummy and Daddy

Oh Mummy, oh Mummy,  
How I love you,  
You buy me ice-cream  
And give me food.  
When I am sad,  
You make me glad,  
And give me hugs and kisses  
When I am mad.

Oh Daddy, oh Daddy,  
How I love you too.  
You buy me snack  
And special gifts,  
Give me kisses  
And help me play tricks.

*Arjounaé John*

## Dinosaurs

They've gone extinct  
And now...  
There's nothing left  
But their bones everywhere.

There was a brachiosaurus  
The largest plant-eater  
It stood so tall  
At twenty-three metres.

There were velociraptors  
They hunted in packs  
They ate the dead  
From brachiosaurus to T-Rex.

I love dinosaurs  
Every single one  
I am so sad  
About their extinction.

*Cayden Ramsaran*

Backward Everywhere

Backward Bill

From Backwardville

Ate dinner in the morning

And breakfast at night.

His tops are his pants,

His pants are his tops,

Wearing gloves on feet

And shoes on hands.

Swimming in the air

Walking on water,

Cars sailing on the sea,

Boats driving on land.

Fish eating sharks,

Sharks running from fish,

Krill eating whales,

Oh, Backwardville!

*Darien Khan*

## Fortnite Life

It's the most popular game

These days.

If you don't have a device,

Just wait!

I can use my Dad's iPhone,

But if he finds out,

He will trip off

And may throw me down the waterspout!

Fortnite, I love your game,

I just want to have a little fame.

I can make millions off playing,

Time for me to start gaming!

Oh Fortnite, oh Fortnite,

Keep up the good stuff,

Or else I'll have to stop

And get a job.

*Rayshaun Robinson*

## Chess

Chess, my favourite game to play

Chess, the word I love to say

Chess, a sport I never rest

Chess, I want to play the best

Chess, a game I study every day

Chess, I play moves every way

Chess, whether I play Scotch or Alakin

Chess, when I play I usually win

Chess, I play it every year

Chess, I play it everywhere

Chess, I play it every day

Chess, I play it every way

*Luke Gillette*

## Riding

I love to ride my bike  
but it's always so small  
every time I pedal  
my knees hit the floor

I ask my Grandpa  
to use his own  
but it's just too big  
to get on it alone.

I finally realize  
there is no perfect bike for me  
no matter how hard I try  
"Please find me a bike," I plead

I see it clearly, the perfect bike  
in my sight  
not too big, not too small  
I can finally ride  
without hitting the floor.

*Xaiya Garcia-Morris*
